

Super Shark Facts

1 Super Shark Facts in a nutshell:

The Super Shark Facts activity is a handwriting worksheet designed to engage children with interesting and fun facts about sharks while they practice their handwriting. Kids trace each fact about sharks and then rewrite it to develop their writing skills. At the end, the activity includes a spiritual or biblical lesson that connects the shark facts to values or principles applicable to the children's lives.

2 Things to love about Super Shark Facts:

- ✓ Sparks curiosity and knowledge about sharks, making learning enjoyable.
- ✓ Enhances fine motor skills and handwriting through tracing and rewriting.
- ✓ Provides a meaningful reflection, encouraging values like strength, perseverance, and faith.

Shark Senses

Draw me some prey!

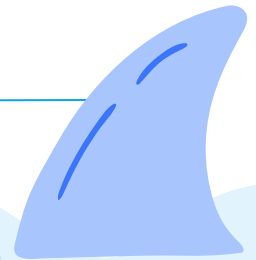

Trace, and copy the shark fact.

Sharks use
electrical sensors
to detect prey.

Sharks use electrical sensors
to detect their prey.

Your turn

Shark-tastic!

Good News!

Sharks are given a special ability to sense things that others cannot.

Similarly, we are given the Holy Spirit as a guide to help us sense what is good and right, even when it's not obvious. We can always follow Proverbs 3:5-6 which says, "Trust in the Lord with all your heart".
